

Classic and stylish

The SELITSTYLE® skirting fits into any interior design style with its timeless appearance and classic shape, making it a stylish companion for your floor.

The practical length of 2 meters ensures an easier transportation of the SELITSTYLE® skirtings. The cutting is done with a standard saw.

Matching accessories

SELITSTYLE® accessories consisting of corners, end caps and connectors are the perfect complement to our skirtings for an even easier installation. Available in four different colors, suitable for any decor.

white

cappuccino

silver

champagne

Simply easy processing!

In our SELITSTYLE® assembly kit* you will find everything you need for a quick processing of the skirtings. So easy that it was even awarded!

Watch processing video:

*Available separately

This is how to do it:

» Place the multitool on the floor and mark the drilling height along the upper edge

» Drill holes along the marked line
» Insert dowel

» Insert the backnail in the groove of the multitool and screw tight

» Fix the skirting to the wall using a hammer and the multitool

What you should also know:

- » Cut the skirting to size using a standard saw
- » The skirting can also be easily attached to the wall with an adhesive

Protective rights pending

100% WATERPROOF

Durability even in moist conditions

Do your children love splashing in the bathtub so much that your bathroom is a bit flooded sometimes? With SELITSTYLE® skirtings this is no longer a problem.

They are made of 100% polystyrene making them naturally waterproof. For you and your family this means hygienic rooms without mould formation and dimensionally stable, beautiful skirtings.

100% INNOVATIVE

For people and the environment

To produce SELITSTYLE® skirtings, nothing more is needed than resin and colour. The polystyrene resin, from which yoghurt cups are also made, is shaped using 100% renewable energy and up to 80% recycled material to conserve resources without any waste.

The decor is then directly printed on using a digital process. The SELITSTYLE® skirtings do not include PVC, plasticisers and formaldehyde and are 100% recyclable.

“The only waterproof skirting with the Blue Angel – for the health of your family.”

- » low emissions
- » low pollutant content
- » no adverse impact on health in the living environment

100% EASY

Even easier with the backnail

Do you often hear that skirtings are difficult to install? We have developed an innovative method for you to attach your SELITSTYLE® skirting to the wall.

With the specially developed “backnail” from SELITSTYLE®, your skirtings can easily be attached to the wall on the back and removed at any time during renovation work. The barbs on the backnail provide a secure hold for the strip. You can find out how to process on the reverse side.
